AVR SECURITY SYSTEMS

Whether it is protection for a business or home, AVR Security Systems provides alarm and monitoring systems to reduce the likelihood of theft, vandalism and intrusion. We work closely with clients to evaluate their unique security needs and budget then recommend the optimum solution to protect them from such threats. Using state-of-the-art security products, we offer the latest in:

- Commercial alarm systems
- Home burglar and security alarms
- Closed circuit video monitoring
- Access control systems
- 24 hour real time monitoring

At AVR, we will not only design the placement plan and install the system, we provide on-going service and repair as needed. For those with a security system currently in place, we review ways to improve efficiencies and manage costs as well as provide on-going maintenance and service.
